MAGICAL FLAVOURS
AND AROMAS AS MYSTERIOUS
AS THE WHEREABOUTS
OF LEVASSEUR'S FABULOUS
HIDDEN TREASURE

concept and design: www.b2-communication.se
photography: francis cordey

Levasseur rum personifies the exotic history of Seychelles and, in particular, that of the notorious gentleman pirate, Olivier Levasseur – savant, connoisseur and bon vivant – also feared as ‘the Buzzards’ who terrorised the high seas looting the treasure ship of the Bishop of Goa with its fabulous, and still-undiscovered, treasure he then concealed somewhere among the rocks of Bel Ombre in north Mahé.

Levasseur rum shares the same enigmatic aura that cloaks the persona of this most erudite of brigands, and indeed these isles, lost in their secret corner of the Indian Ocean, long defying the attempts of even the most intrepid explorers to divulge their mysteries to the outside world.

The brainchild of Seychellois entrepreneur Marco Francis, Levasseur is a sublime evolution of rum-making that draws on the rich tradition of ageing in antique barrels to craft rums which are authentic in nature and of exceptional quality and character. The pedigree of this dark rum comes from precisely this delicate process of being aged in antique barrels infused with genuine flavours, and lingering aromas of whiskey, brown nut, oak and vanilla while containing no added sugars. Levasseur rum is an eloquent reflection of the islands’ deliciously slow pace of life, quite unlike anything else you might encounter elsewhere – a product of Seychelles’ unique history and time-honoured traditions that places great value in the unhurried evolution of all things to achieve true greatness in the fullness of time.

THE EIRA EXPEDITION

Voyage objective
It's a comprehensive research expedition into the northeastern Barents Sea and the Franz Josef Land Archipelago.

The expedition's main tasks
Oceanographic research in the northeastern Barents Sea;
Iceberg monitoring along the route;
Reconnaissance investigation of coastal plains and marine routes at the Franz Joseph Land Archipelago;
Search for the remains of the sunk "Eira" yacht;
Checking on the condition of the historical sites related to discovery and exploration of the Franz Joseph Land Archipelago;
Biological research into the insular flora and fauna.

PHILOSOPHY OF ACARSA

Discoveries, encounters, culture and history: this is what ACARSA offers you when you personally take part in our Travels and Scientific Expeditions.

Our Scientific Expeditions are prepared by experienced scientists. By joining an expedition you will be able to live an unusual adventure, while taking an active part in scientific research, and to discover all the beauty of remote areas.

You do not need to be a specialist or to be an athlete to join us. Maybe you will have to learn to increase your capacity to adapt and to cope with extreme weather or sea conditions or any other unexpected event. Your desire to walk along the paths of the first explorers and your thirst for knowledge about the wonders of our universe will act as a trigger to your inner strength.

If you want to join us in our Travels and Scientific Expeditions, you need to have a deep sense of respect for NATURE. This is the fundamental and vital requirement to preserve the splendours of our marvellous blue planet.

Nikko Vuille
Founder of ACARSA
